

PROFILE SUMMARY

Computer Science graduate and Full Stack Developer skilled in React.js, Node.js, Express.js, and MongoDB.

EDUCATION

- **APC Roy Government College** - BSc in Computer Science, 2022–2025, Siliguri, West Bengal, India, CGPA: 7.55/10
- **Kendriya Vidyalaya No.1** - Intermediate (CBSE), 2021, Binnaguri Cantt, West Bengal, India, Percentage: 81.2%
- **ST. Francis Academy** - Matriculation (CBSE), 2019, Madarihat, West Bengal, India, Percentage: 87.6%

SKILLS

Languages: JavaScript, SQL, C, Java, Python, C++

Frontend Technologies: HTML, CSS, React.js, Tailwind CSS, React Router

Backend Technologies: Node.js, Express.js, RESTful APIs, Socket.io

Databases: MongoDB, MySQL

Developer Tools: Git, GitHub, Docker, Docker Compose

Core Concepts: Data Structures & Algorithms, Operating Systems, Computer Networks, Design and Analysis of Algorithms

PROJECTS

College Doubt Appointment System | *Full Stack MERN*

- Developed a full-stack MERN application for students and professors to manage doubt booking appointments.
- Implemented authentication, booking management, and role-based dashboards for Admin, Professors, and Students.
- Built responsive interfaces using React and Tailwind CSS with RESTful APIs.
- Integrated MongoDB for application data management and Cloudinary for professor and student profile image uploads.

Tech Stack: React.js, Node.js, Express.js, MongoDB, Cloudinary, JWT, Tailwind CSS, Git, GitHub

[GitHub](#) — [Live Demo](#)

Code Doctor | *Full Stack MERN*

- Built a full-stack MERN application that scans uploaded JavaScript project zip files and reports code issues with file name, line number, and severity.
- Integrated the Google Gemini API to generate explanations, risks, and corrected code for every detected issue.
- Implemented JWT authentication with optional auth middleware, allowing guest scans while saving scan history to a personal dashboard for logged-in users.
- Built a responsive UI using React.js and Tailwind CSS, with RESTful APIs and MongoDB for storing user scan data.

Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT, Gemini API, Tailwind CSS, Git, GitHub

Real Time Chat Application | *Full Stack MERN*

- Developed a full-stack real-time chat application with one-on-one messaging and instant message delivery.
- Implemented real-time messaging with Socket.io, online/offline status, and message notifications.
- Built secure JWT-based authentication system with protected routes and integrated Cloudinary for image sharing.
- Designed responsive UI using React.js and Tailwind CSS with context API.
- Dockerized the application using Docker and Docker Compose, containerizing the React frontend, Node.js backend, and MongoDB.

Tech Stack: React.js, Node.js, Express.js, MongoDB, Socket.io, JWT, Cloudinary, Tailwind CSS, Git, GitHub, Docker, Docker Compose
